HOW TO BOOK

01

HELLO!

INTRODUCTION

Hi, We are Rob & Lori a funky couple that also happens to be romantic!

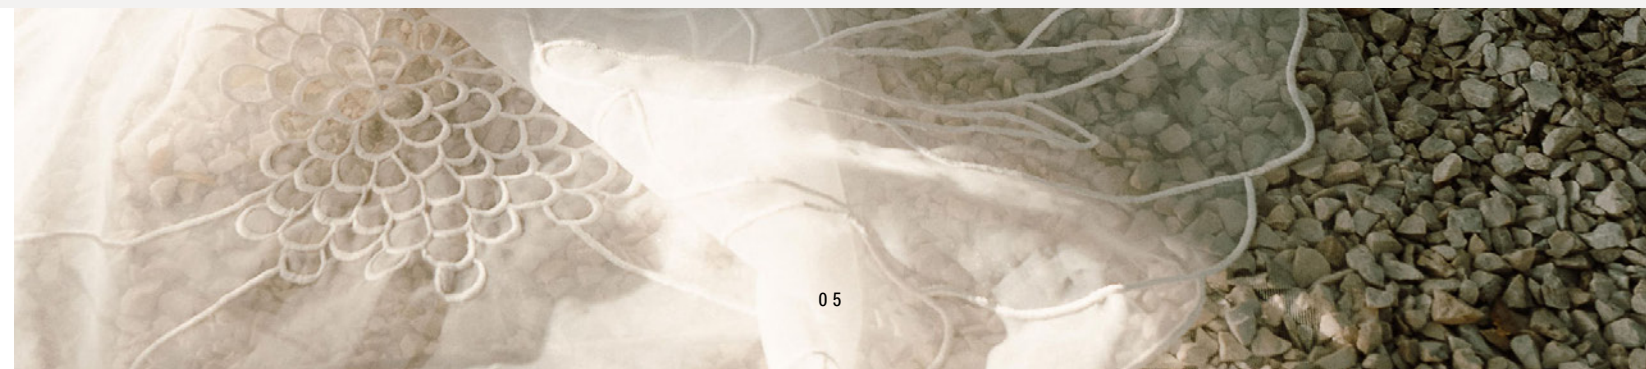

We're a full-time wedding and couples photographers currently based out in Costa Rica. We have been shooting weddings and couples since 2016, and it truly has become one of our favorite things in our life.

As a couple we enjoy to spend our time together, love listening to music and run movie marathons. We also love to go out to the movies, for a nice dinner or have some quality time with our friends. We enjoy outdoors and to breathe fresh air, so whenever we have some free time we like to go out and explore some new locations for our shoots.

As photographers we are constantly inspired by the stories that have taken place in our lives and the ones around us, we know that each person has a story to tell, all the beauty and details, are there for us to capture them through our cameras.

We love to make images that reflect how you really feel, how you are together, your dynamic, your sense of humor, your hugs and intimacy as a couple, and to go deep into the real you.

We want to get to know you and create a connection between us, to this way you can feel comfortable, relaxed and confident about our work, when all of this happen we're more than sure that we can accomplish the best work ever.

02

ADVENTUROUS + AUTHENTIC + MEANINGFUL

We keep the realness of people capturing the moments as unfolds, to make it simple we like the real stuff!

We are natural light enthusiast, we like to create timeless, vibrant & effortless photos with an editorial feeling. Our style is modern, adventurous and romantic and couples that reach us are looking for photographs that are magical/unique in a natural way, nothing forced nothing set up, only the realness and essence of the people in the places they love.

We take a very hands off approach to wedding photography, you'll spend your day having fun not posing for photos every single second of it, this is all about you and your beloved ones. We're really easy-going, we want you to think of us more like two guests who take nice photos than actual photographers, this way you will feel more comfortable with us around. We'll be there for you but mostly we want to create an experience with you, so you'll walk away of the photoshoot idea and we'll start to create as a team something meaningful and enjoyable where you can get the best experience of it.

CORINE & ERIC / TAMARINDO

TO US, BEING A GREAT PHOTOGRAPHER
DOESN'T START AND END WITH US.
WE ENJOY GETTING TO KNOW WHO WE
ARE PHOTOGRAPHING AND CREATING A
RELATIONSHIP BECAUSE WHEN WE START
TO FULLY UNDERSTAND THE NUANCES,
QUIRKS, AND QUALITIES THAT MAKE
YOUR LOVE UNIQUE, IT ALLOWS US TO
TRANSLATE THAT INTO MEANINGFUL
PHOTOGRAPHS, NOT JUST PRETTY
PICTURES.

We really enjoy documenting the vibe of your wedding day, every wedding is unique and full of magic, so we don't want to add artificial ingredients, just capturing moments as they naturally happen from two different angles and eventually providing gentle and natural directions during portraits time so you can have an idea of what can be done.

We go to every wedding and session together, this way you will have two full-time wedding photographers during your Big Day.

We include a pre-wedding consultation video call where we can talk about your plans, ideas, questions or suggestions and the most important part, to meet you!

Also, all our wedding collections include a Wedding Guide that we specially designed in order to help you out with tips regarding photography.

Mich & Michael - Potrero

We feel beautiful in the photos and are proud of the day we shared! Rob and Lori are sweet, thoughtful, encouraging, and approachable. It felt like we gained two instant friends that day. Rob and Lori helped manage our day, capture every single moment, and created beautifully authentic photographs. We did minimal posing which we loved! We didn't have to spend time trying to look a certain way for photos, they took our day and gave us the greatest gift. Memories for a lifetime! We can't say enough good things about Raw Shoots.

Jen & Lucas - Tamarindo

WEDDING ALBUMS

A wedding album is a new addition to the family legacy with portraits and memories of your beloved ones that deserve to be preserved with care. Our albums are a layflat carefully crafted to last, making it an heirloom that your family will pass down for years to come.

This 12x12" layflat pages album comes in 10 different colors and fabrics to match your wedding theme or your current home decor. With the option to customize the cover with simple text or embossing.

To make it truly yours, you can also choose to personalize your book with text that is stamped onto the fabric in one or two lines (max 25 characters per line). Adorn your book with names, dates, or a phrase to celebrate the stories inside.

The albums are made and printed in the USA on thick Silver Halide Fuji DPII Lustre Paper, which features excellent color depth, a beautiful semi-matte finish, and a scratch-resistant surface. This is top-grade professional photographic paper designed to last 80+ years without fading (when the book is closed).

The pages are then glued together with a thick cardboard sheet between them for a true lay-flat appearance. This means you'll be able to see your images laid out just the way you intended.

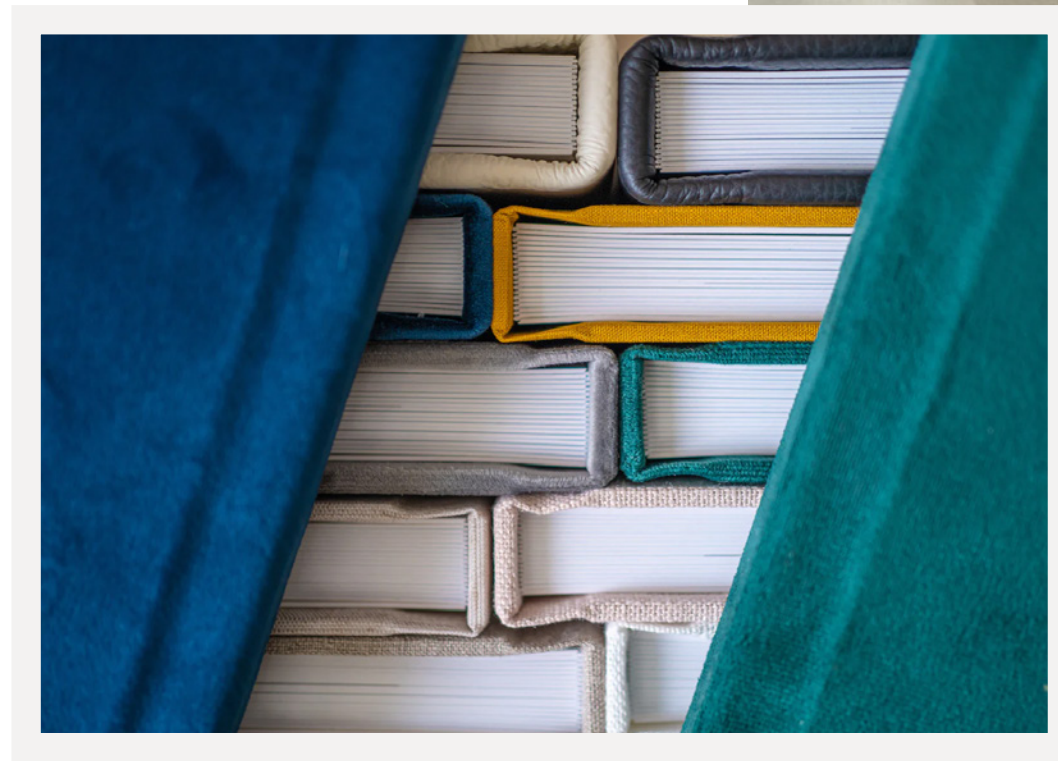

Upon arrival, the layflat photo album comes in a handcrafted box to keep it safe and secure. Thanks to the high-quality covers, luxe semi-matte photo paper, and safe storage, with proper care, your cherished moments will last a lifetime.

Couple sessions are highly recommended for a number of reasons, are extremely fun to do, it's a great opportunity to get to know each other, learn about you as a couple, and most importantly it's a wonderful time for you to share all those natural laughs and intimate moments with the camera.

We'll pick a spot that resonates with you and we'll explore the surrounding area together.

We love to make you laugh and have a good time... by the end we assure you'll love this and your photos too.

I WANT TO KNOW MORE

FAQ'S

Q: *This will be our first time doing a photo session, so this might feel awkward to us, will you give us a hand?*

A: Totally, we will help you out all the way since the beginning. In order to capture lovely pictures you need to be confident and have fun with us, we'll not make you feel uncomfortable or awkward, instead, we will guide you with little tips to get lovely moments between you two, by the end of the shoot you'll feel like a pro without even thinking about it.

For couple/engagement photos we normally take a couple of hours, most of the time by the end of the afternoon so we can get the best light. We don't like to rush things out, because it's not just about shooting and shooting pictures, it's also about knowing you so we can get the most genuine side of you. Tip: *bring any favorite prop: a blanket, beers, surfboard, etc.!*

For wedding portraits, the ideal for us is a minimum of 30min, this way you won't feel so stressed and can take things slow and nice, during this time we want you to enjoy it and to be stress-free, take a break from all the rush of the wedding and have this time for you two, realize what just happened and share your feelings, trust us, it's a intimate moment that you want to remember.

Q: *Do you guys always shoot together??*

A: Yes, we do. The only reason that we don't

shoot together during a wedding or a session it's because one of us got sick or something like that, but besides that, we go to every wedding and session together. Even so, if one of us can not go, we take another awesome photographer so you can be sure that there will always be two photographers covering your day.

Q: *How long will it take to deliver our wedding or session?*

A: For weddings in most cases our turn around time is 8 weeks to deliver the full gallery, but sometimes if the load of work is heavy during our peak season we might take a little bit more (just a little). For any other session the time varies from 6 to 8 weeks. We always try to give you some preview images as fast as we can, so you can share with your family, friends or post on your social media.

Q: *Do you guys edit all the photos?*

A: We handpick and edit every single photo that you receive by ourselves, this culling and editing process of our service is something that we really put effort and spend a lot of time curating and color correcting each photo so the story and vibes makes sense. You will receive a product made 100% by us and that is totally under our control.

Q: *How do we receive the photographs?*

A: Once the images are totally edited, we will upload the photographs to a private online

gallery that you will have access with an exclusive password for one year. From this gallery you will be able to download individual images and/or the entire gallery as many times as you want to.

Q:Can we order prints of your photographs or does that cost extra?

A: Yes! there is a printing option within the Online Gallery that is pretty easy to use, it works like a shopping cart where you add the images and the quantity you want of each image, this printing service is provided by a professional printing lab in the USA and is totally handled online.

Q:How many photos can we expect from our engagement session or wedding?

A: It definitely varies! For weddings, it depends on your coverage, but on average between 500-1200. It's hard to tell the exact number because it will depend on a lot of things, such as available light, timing, amount of guests and even the interaction between them, we try to stick with a minimum of 100 per hour, but it can go higher than that very easily if the conditions allow it. For couples sessions/engagements, average 100-200.

Not to worry though, we never leave anything out and will include plenty of photos of everything we capture. You will get anything and everything that meets our standards!

Q:What if you haven't been to my venue, does this affect the workflow somehow?

A: Not shooting in a venue before is not a problem for us, we have been to a lot of venues in Costa Rica and if we haven't been to one before, we always do a previous research and if is possible we go the day before or early during the wedding day to check out potential locations and see how the light behaves, so we can be confident and take the most of it.

Q:Can we provide you with a "shot list"?

A: Because we are more into the documentary style, we don't really work with shot lists upfront, but as you can see in our galleries we take care of details, candid shots and all the key moments. There is one list that we really appreciate and is a small list of people for the "formal portraits", you know the ones with parents, grandparents, close friends, etc., something that helps a lot is make everyone aware that they are needed for photos at certain time and to tell one of your friends to help to call the people for each shot, this is basically because for us it will be very hard to know who is who and it can take longer, but telling a friend to help with this will speed up the process a lot.

Q:Do you shoot wedding details?

A: Absolutely, we love wedding details and we are sure you love them too. It is a shame spending so

much money and time and not having memories of the details that you choose for this day.

Q:Can you guys "Photoshop" us?

A: Our service doesn't include Photoshopping things, animals or humans, in case you need some of this for any reason, you can let us know in advance and we can add it as an extra. The value of this depends on how complex is the job, in case there is a heavy photoshopping belong our possibilities, we can recommend you some great people that do this kind of job after our photos are delivered.

Q:Do you have wedding vendors that you can recommend us?

A: Of course, you can find all sorts of amazing and talented individuals in Costa Rica from wedding planners, flower designers, officiants, rentals, makeup artists, videographers, etc. Don't hesitate to ask us if you need some assistance getting in touch with them.

Q:Can we meet before the big day?

A: Absolutely, we'll love to do that, for us is very important that you meet us in advance, this way when we meet in person you will not feel awkward having us around taking pictures of you like flying mosquitos. Having this video call will help a lot to get to know each other and break the ice.

Q:Do you guys need to eat on the wedding day?

A: Please! and it's ideal to do it at the same time when you two eat. This way we don't have to worry about missing anything such as speeches, first dance or any other activity that might happen right after dinner. When you're done, we're done too and ready to keep shooting.

Q:How do you accept payment?

A: We accept payments via PayPal, or traditional wire transfers.

Q:How do payment schedules work?

A: For weddings and elopements we require 30% retainer to secure your date, and the remaining 70% is due one months in advance. If it's a couple session or other service we require a 50% retainer to secure the date and the remaining 50% is due the day of the shoot. No date will be insured and / or reserved exclusively until such deposit is made and the contract is signed.

Did you know...

By booking Raw Shoots you are also helping local rescue centers in Costa Rica to keep feeding and bringing shelter to stray animals.

05

SOUNDS GOOD TO US, HOW DO WE BOOK?

That will be lovely! Here's how to secure your date:

1. Send us an email to confirm our availability.
2. If the date is available, we'll require some basic information from you in order to create the contract, you can find that [information by clicking here](#). Once we get this information, we'll send you the contract through a website where you can review it and sign it online.
3. Once you chose your payment option(wire transfer or PayPal) we'll send you the instructions in order to complete transfer.
3. We can set up a time to meet up so we can do the in-person consultation via Skype, WhatsApp or Facetime.
4. We'll send you our Wedding Guide.

Simple as that! Now you just sit back, relax, and get excited about what is to come!
